

ADVANCED SAFETY CERTIFICATE

EARN YOUR ADVANCED SAFETY CERTIFICATE THROUGH THE FLORIDA CHAMBER SAFETY COUNCIL

What is the Advanced Safety Certificate (ASC®)?

The **Advanced Safety Certificate** program is a nationally-recognized safety curriculum based on proven best practices and developed by the National Safety Council. The ASC® program builds upon knowledge of compliance requirements to further your safety education. Through **12 training days and 7.8 CEUs**, this popular safety certificate program will help you learn how to direct your organization's comprehensive safety plan with greater efficiency and success.

The ASC® Program Helps You:

- Learn techniques for a balanced approach to safety management, addressing administrative, technical and cultural elements
- Develop problem-solving and decision-making skills
- Develop management skills to establish yourself as a problem solver and decision maker
- Determine when, how and to whom you should delegate safety responsibilities
- Set safety performance measures for employees and your organization
- Get a head start on a management plan tailored to your organization's safety and health needs
- Assess your organization's safety training needs
- Design a custom safety training program for your organization, and deliver performance-based training

Courses Offered Include:

- *Principles of Occupational Safety and Health (OSHA)*
- *Safety Management Techniques*
- *Fundamentals of Industrial Hygiene*
- *Safety Training Methods*
- *Safety Inspections*
- *Risk Assessment Workshop*
